

**PHIL**

A natural source of **strong anti-oxidant**  
containing  **$\beta$ -carotene, Lycopene**  
and **Omega 3**  
which help **eye health**

**Gac Oil softgels**

**A new solution for your eye health!**

**Gac fruit** (*Momordica cochinchinensis* Spreng.) is a tropical vine originating from South and South-East Asia. It has traditionally been used in Asia as food and for medicinal purposes. Gac fruits have emerged as a potential source of carotenoids, especially Lycopene and  $\beta$ -carotene.

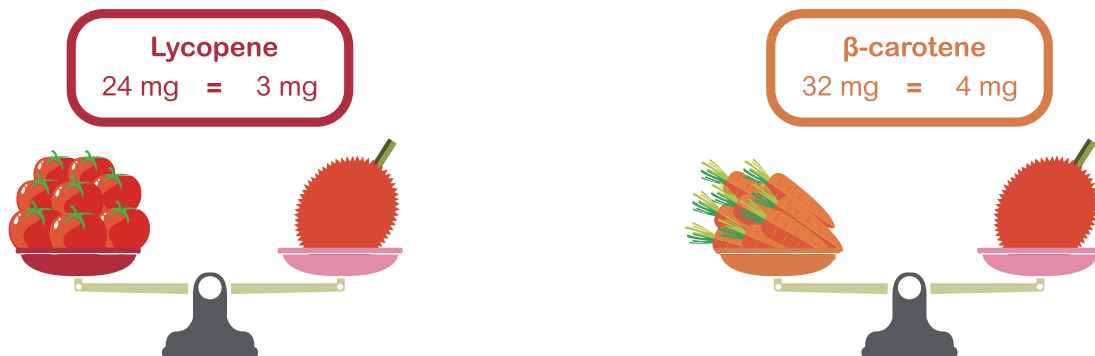

**PHIL** developed a dietary supplement for **eye health** by filling the natural Gac oil in softgels. It contains **strong natural antioxidants** such as  **$\beta$ -carotene** and **Lycopene** and also unsaturated fatty acids, **Omega 3, 6 & 9** which are known to **enhance the bioaccessibility of the carotenoids**.

**x70** Lycopene than tomato

**x10**  $\beta$ -carotene than carrot

**x8** higher bioaccessibility than carotenoids in carrot and tomato

The **bioaccessibility of carotenoids** in **Gac oil** is supported by **Omega 3,6 & 9** contained in the Gac oil per se.

## Gac oil softgels

**45 g of fresh Gac fruit  
just in one capsule!**

Serving Size 2 softgels	
Amount Per Serving	
Gac oil	1,500 mg
providing:	
$\beta$ -carotene	3.78 mg
Lycopene	2.7 mg
Fatty acids	
Linoleic acid (Omega 3)	3 mg
Linoleic acid (Omega 6)	300 mg
Oleic acid (Omega 9)	300 mg
D- $\alpha$ -tocopherol	3 mg
